---

As a Server Technician, I am constantly researching and building whether it is at work or in my home lab. In IT it's important to keep up to date as technology is always advancing so I have dedicated my time to earning certificates such as the CompTIA A+ and to finishing my Computer Science degree at WGU. IT is a vast field and there are many skills that I have learned which is why I have created [my own website](#) to showcase my experience and projects.

---

## WORK EXPERIENCE

### SERVER TECHNICIAN

Cloud Ninjas | Houston TX

JULY 2023 - PRESENT

- Assembled Dell, HPE, and Supermicro servers with proper parts and BIOS configurations never missing a QA test.
  - Tested and refurbished server equipment for customers meeting deadlines through teamwork and communication.
  - Installed VMware and Windows Server operating systems on servers and setup iLO and iDRAC for customers to remote into it.
  - Wrote technical scripts for Cloud Ninjas [YouTube tutorials](#), rectifying inaccuracies in HPE/Dell technical sheets.
- 

## PROJECTS

### ACTIVE DIRECTORY WINDOWS SERVER | [GITHUB](#)

Setup an enterprise domain and script to let 1000 employees log in to the computers with their username and password.

### AUTOMATED SERVER COMMANDS | [GITHUB](#)

Created bash scripts to run my game server that were controlled by a Python program that parsed the log file for user commands.

---

## EDUCATION

**BACHELORS DEGREE IN COMPUTER SCIENCE AT WGU - 2025**
